

alongside Endress+Hauser factory service records, manuals and industry certificates, significantly reducing time spent on reports and enhancing overall productivity. Furthermore, distillery personnel become safer and more efficient, avoiding the need to climb tanks or access tight spaces thanks to the technologies' remote capabilities.

The image displays two screenshots of the Endress+Hauser Field Xpert SMT70B interface. The top screenshot shows a 'Library' view with a search bar and a list of process areas: Blending, Distillation, Fermentation, High Wine storage, Mashing, and Stillage. Each area is labeled as 'Area' and has a 'No specifications' link. The bottom screenshot shows a detailed view of a device (FMR62) with the following data:

- Device name: FMR62
- Output current 1: 18,06 mA
- Level linearized (93): 87,903 %
- Distance (9): 0,923 m
- Status signal: OK

The interface also features a 'Menu / Variable' table and an 'Instrument health status' section. The 'Menu / Variable' table is as follows:

| Menu / Variable | Value | Unit |
|------------------------|------------------------|------|
| Access status tooling: | Maintenance | |
| Compassing | | |
| Setup | | |
| Device tag: | FMR62-6HH8/0 | |
| Distance unit (2): | m | |
| Tank types: | Process vessel sta... | |
| Medium groups: | Others | |
| Empty calibration (3): | 4,000 m | |
| Full calibration (4): | 3,500 m | |
| Level (7): | 87,903 % | |
| Distance (9): | 0,923 m | |
| Signal quality: | Strong | |
| Distance (9): | 0,923 m | |
| Confirm distance (11): | (c) Distance unknow... | |
| Present mapping (58): | 0,000 m | |
| Advanced setup | | |
| Diagnostics | | |
| Expert | | |

The 'Instrument health status' section shows 'OK' and 'Process variables - Device tag: FMR62-6HH8/0'. The process variables are displayed in a large, clear font:

- Level linearized: 87,902 %
- Distance: 0,923 m
- Absolute echo amplitude: -54,096
- Relative echo amplitude: 19,070 dB

The bottom status bar indicates 'Connected' and 'User Role: Planning engineer'.
