The nearly 150-meter-long building boasts 25,000 square meters of additional space.

EH_2022_Produktion.jpg

Among other products, Endress+Hauser manufactures high-quality flowmeters in Reinach for monitoring and measuring liquids and gases.

EH_2022_Digital_Solutions.jpg

Endress+Hauser Digital Solutions is responsible within the Group for all issues related to digital communication and automation solutions.

EH_2022_Ausbildung_1.jpg

Endress+Hauser places great value on its in-house vocational training program.

EH_2022_Ausbildung_2.jpg

The new building contains learning-conducive areas with workshops, labs and training rooms.

EH_2022_Ausbildung_3.jpg

Endress+Hauser plans to increase the number of apprenticeship positions over the coming years.

EH_2022_Flow_Experience.jpg

The Flow Experience world integrated into the visitor center makes it possible to experience the Endress+Hauser brand even before the plant tour.

EH_2022_Schichtenspeicher_1.jpg

The heart of the heating system is a stratified tank that stores waste heat.

EH_2022_Schichtenspeicher_2.jpg

Endress+Hauser wants to heat two-thirds of its buildings in Reinach with waste heat by 2030.

EH_2022_Solarenergie.jpg

Endress+Hauser is one of the largest producers of solar electricity in the Basel region.
