

## TriNova, Inc. opens new Endress Core of Excellence Education and Wellness Center

**Endress+Hauser sales and service partner opens new 19,457 square-foot facility to create opportunities for current and future employees to advance their technical skills and wellness**

August 8, 2023 – Endress+Hauser sales and service representative partner of more than 20 years, TriNova, Inc., announces the completion of its Endress Core of Excellence Education and Wellness Center in Mobile, Alabama. The new facility—opened July 13—will create development opportunities for employees and fellow representative partners and improve networking capabilities.

“TriNova’s new Endress Core of Excellence Education and Wellness Center symbolizes the growth and progress that both companies have achieved together,” Endress+Hauser USA General Manager Todd Lucey said. “This new facility will be instrumental in creating future community connections and educational engagement to benefit talent pipelines for TriNova, Endress+Hauser and the greater process industry. Organizations that attract and grow their own workforce will be leaders in the market.”

The new 19,457 square-foot facility will house the company’s PTU (Process Training Unit) to assist in customer training, providing much-needed hands-on experience. In addition, TriNova will expand its offerings with an Apprenticeship Program for its areas of operation, also utilizing the PTU. Through this program, TriNova will connect students, parents, educators, counselors and industry experts to raise awareness and provide crucial information regarding technical career opportunities and the significance of STEM.

“We are thrilled to add the new Endress Core of Excellence Education and Wellness Center to our campus to assist in maintaining the growth and success we’ve achieved over the years,” said TriNova, Inc. President Robbie Watson. “Not only is this facility a testament to those successes, but it’s a symbol of our confidence in the future of TriNova and Endress+Hauser. This building started as a vision to extend our training capabilities with the Process Training Unit and Apprenticeship Program and take them to another level. Now, that vision is a reality. The new facility is an asset to our customers, current and future employees and fellow Endress+Hauser representative partners.”

With its wellness facility, TriNova hopes to promote positive, healthy lifestyles for its employees. The wellness facility will also house company events.

## **About Endress+Hauser**

Endress+Hauser is a global leader in measurement and automation technology for process and laboratory applications. The family company, headquartered in Reinach, Switzerland, achieved net sales of more than \$3.6 billion (3.3 billion euros) in 2022 with a total workforce of nearly 16,000. Endress+Hauser devices, solutions and services are at home in many industries. Customers thus use them to gain valuable knowledge from their applications. This enables them to improve their products, work economically and at the same time protect people and the environment.

Endress+Hauser is a reliable partner worldwide. Its own sales companies in 50 countries as well as representatives in another 70 countries ensure competent support. Production facilities on four continents manufacture quickly and flexibly to the highest quality standards.

Endress+Hauser was founded in 1953 by Georg H Endress and Ludwig Hauser. Ever since, the company has been pushing ahead with the development and use of innovative technologies, now helping to shape the industry's digital transformation. 8,700 patents and applications protect the Group's intellectual property.
